

2020 MIBFN Network Meetings and Community Conversations Transcriber Overview

Transcriber Summary:

Community Conversation Transcribers are individuals who reflect and represent the community they serve. Transcribers record and convey a report-out on the Network Meeting's Breastfeeding Champion Panel and the Community Conversation's Facilitated Conversation, using a form developed by the Advisory Council. The report out of each local meeting will be owned by meeting collaborators and participants. These reports will also be made publicly available. Based on the six meeting reports, MIBFN will also create and publish a clear and actionable report that will serve as the foundation for our forthcoming strategic planning efforts.

Community Conversation Transcribers support the 2020 MIBFN NMCC by:

- Disclosing any conflicts of interest that may interfere with the planning and/or implementation of the NMCC.
- Taking notes during the breastfeeding champion panel and facilitated conversation using a form developed by the Advisory Council.

MIBFN supports Community Conversation Transcribers by:

- Providing a form for note-taking during the local champion panel and facilitated conversation
- Providing a \$500 stipend in gratitude for time and expertise.
